

Project 2 UI Plan

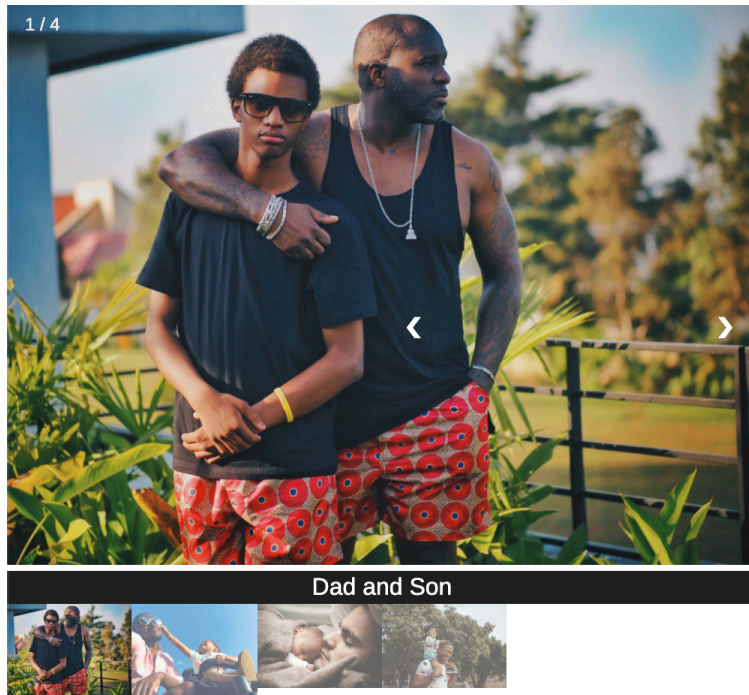

The three elements that will be interactive within this project will include the navigation, the slideshow/hero image on the home page and the events on the event page. For the slide show on the homepage, the user will be able to click through 4 pictures and also see thumbnails for these particular pictures underneath, along with a description of these images. The arrows will allow you to proceed and go back to previous pictures that you have seen, as well.

When you move on to the events page, the visitor will see a list of dates for one of the organizations regular monthly events that they have. Once the date is clicked an accordion style JavaScript element will pop down to reveal more info about said event. Once another date is clicked, the previous element will close allowing the content in the next date to reveal itself.

Lastly, the navigation for the page itself is interactive and will be a hamburger menu on both the mobile and desktop version of the site. Once the hamburger is clicked then it will reveal all of the different pages within the nav bar. Once a page is selected of course the menu will close until you are ready to move on to the next page.

July 16th, 2019

Provides open dialogue on what motivates and hinders fathers/father figures in our community. During our monthly meetings we discuss the role of fatherhood to create bonds and networking opportunities. Subject-matter experts are welcome to schedule a speaking engagement at a session that will aid in building up men. Meetings are held on the 1st Thursday of every month at the Family and Youth Service Center 1120 Government St. Baton Rouge, Louisiana 7pm. Next meeting: Monday August 1, 2019.
